

DSP9500 is a high-end, heavy-duty and yet cost-effective enterprise-grade IPPBX system for medium to large enterprises. It is a fully featured SIP system with high system capacity, allowing the DSP9500 to fulfill a business's existing telecommunication needs while also providing future growth options and all of this without additional license fees.

DSP9500 is ideal for those enterprises which have a demanding telephony environment, as it supports up to 500 extensions, 100 simultaneous calls, 100 simultaneous conference attendees, up to 7500 hours call recording. All features are available to use with no additional license fees.

Advantages

✓ Quick Setup Wizard

Quick Setup Wizard allows speedy initial configuration of the U100 system. The wizard includes all essential configuration steps in an easy to use and intuitive web based interface.

✓ Extension extension box zero configuration

Extension extension box can help users deploy a large number of analog phone terminals in a very short period of time. Both local and remote deployment are equally simple and fast

✓ Hot Standby

Two U100 servers run simultaneously, upon failure of one of the servers, the other server will take over all IP phone services. By using Hot Standby, it guarantees high availability of the enterprise phone services.

SIP Proxy Services

No fixed public IP, third-party DDNS services and VPN router required. Remote extension and remote branch office phone system integration have never been easier!

✓ Billing

With built-in billing system, no third-party billing software required. Prepaid/postpaid billing, billing credit, flexible billing rates and billing statistics features are all supported.

✓ Web Conference Manager

By using web conference manager, it will be much easier for you to start and manage a conference from the Web interface. Invite participants, mute/unmute participants, kick out participants can be done by a few mouse clicks.

Hardware Specifications

Items	Specifications
Telephony Interfaces	8xFXO/FXS/GSM/WCDMA, 2xE1/T1, 4xBRI Interfaces
CPU	2.41GHz Dual-core Intel Processor
RAM	4GB DDR3L
Storage	16GB EMMC + 500GB HDD
USB (Extended Storage Supported)	2 (Supported File System: FAT16, FAT32, EXT FAT, NTFS, EXT3, EXT4)
Ethernet Interface	WAN, LAN (10/100/1000Mbps)
Power	AC 100-240V, Max. 1.5A
Dimension	440x222x44mm (19" 1U industry standard rack-mountable chassis)

Software Specifications

System Capacity	<ul style="list-style-type: none"> ✓ 500 Extensions ✓ 100 Simultaneous Calls ✓ 100 Conference Attendees ✓ 7500hrs Recording/Voicemail (Internal Storage) ✓ 1-31 EX16S Deployment (Recommended) 	<ul style="list-style-type: none"> ✓ Unlimited IVR Levels ✓ 200 SIP/IMS Trunks (Max) ✓ 500000 CDR History ✓ 10000 Phonebook Contacts ✓ 50 Paging Members
